

## TROUBLESHOOTING GUIDE

# Jr. Station keeps turning off

[KB Home](#) > [User Troubleshooting](#) > Jr. station keeps turning off

---

Was your laptop asleep for several minutes before the projector shut down?

- If so, the projector may simply have **timed out after not receiving a signal for several minutes**, and shut down.
- To prevent this from happening again, plug in your laptop and change its settings so it doesn't go into sleep mode.

What buttons have you pressed?

Has this happened to you before in this room?
