

TROUBLESHOOTING GUIDE

Mic cabinet won't open

[KB Home](#) > [User Troubleshooting](#) > Mic cabinet won't open

Search To-Do for the room number, to see if there's any info in AV Issues or Room Notes re: the mic cabinet door/lock of this specific Teaching Station having a known issue.

Sometimes the mic cabinet gets stuck, and there are **a couple of tricks you can try** to get it open:

- Tap the "Unlock Microphone Cabinet" button and push the mic cabinet door closed.
- Tap the "Unlock Microphone Cabinet" button again and try pulling the mic cabinet door open again.

If these steps don't work, send a co-pilot 🚨
